

## DANISH DESIGN

The logo with the “double D” symbolises the unique world of design on every Danish Design watch.

The simple, elegant and non-obstructive characteristics are not only the forms of the DD models but also used materials. Steel, titanium, tungsten, anti-allergic PVD coated cases and mineral or scratch-resistant sapphire glasses will contribute to the comfort of wearing.

Simple yet exquisite. That is all you can say about these beautiful pure Scandinavian design watches. The slim hands and index are making these watches look serene. The adjustable genuine rubber strap makes these timepieces fit perfectly around the wrist.

Made of stainless steel, 3 atmosphere water resistant and covered with mineral glass. The gents version includes a calendar function.
