

## DANISH DESIGN

The logo with the “double D” symbolises the unique world of design on every Danish Design watch.

The simple, elegant and non-obstructive characteristics are not only the forms of the DD models but also used materials. Steel, titanium, tungsten, anti-allergic PVD coated cases and mineral or scratch-resistant sapphire glasses will contribute to the comfort of wearing.

These ladies design watches in the collection of Danish Design are highly elegant as well as modern. Every lady, young and old, can wear this watch as its style and figure show an exclusive timeless appearance.

Made of stainless steel, these watches are made in four variations. The adjustable stainless steel strap makes this jewel fit perfectly on the wrist. Good quality is guaranteed due to the fact that the peaceful dial can be seen through the sapphire crystal glass.
